

Mac OS X – Ethernet Setup Guide

Basic setup information for your Internet connection

These instructions only apply to an Apple Macintosh running OS X

1) Connect your Ethernet cable from your Macintosh to the network jack in the wall.

2) Open the System Preferences window from the dock or the Apple menu

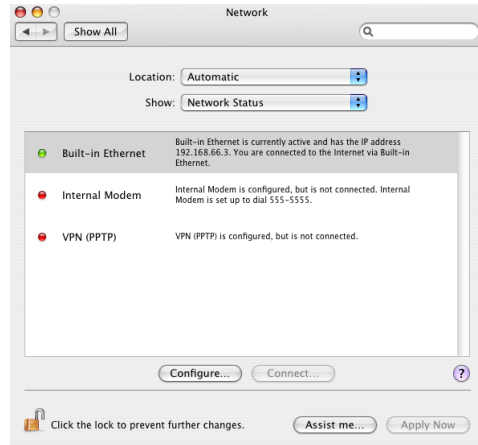

3) Click on the Network icon.

Version 10.5 looks like this:

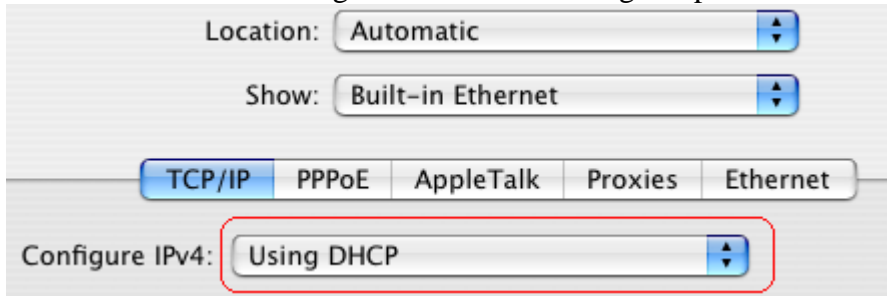

10.4 and earlier look like this:

4) 10.5: Select Ethernet and make sure you select Using DHCP (as above on the left)

10.4: Select Built in Ethernet and click Configure.

Then choose Using DHCP next to Configure Ipv4

5) Test your setup, open an Internet browser and type the following address into the address bar: <http://www.time.gov> and select the correct time zone.

If you are still having difficulty connecting to the internet, please refer to the following sources:

Contacting OFM Computer Systems, Inc. for support:

Phone: **434-422-9301** (this is a local call for Charlottesville Residents)

Email: woodard@charlottesvilleisp.com

Twitter: <http://twitter.com/ofmwoodard> (Network Status updated here)

Live response is available Monday through Friday from 9AM until 5PM. If you are contacting them outside those hours you will reach a dedicated voice-mail system. On-site support will be provided if remote support service is not feasible.

If you call during standard business hours and leave a message, you should receive a telephone response within 4 business hours or less. The standard business hours are Monday through Friday, 9 a.m. to 5 p.m. (except for Holidays observed by OFM). Calls received after 5PM will be returned by 11AM the next business day. Calls received on the weekend will be returned by 11AM the following business day.

Please keep in mind that you may have problems which are unrelated to the Internet Service provided by Woodard Properties. OFM is only authorized to support your directly wired internet connection to the prescribed wall jack. Problems with your computer hardware, operating system, virus infections/spyware or wireless connection, etc. are not covered under our agreement with OFM.
